This research is in line to find out the influence of advertising and brand awareness on the decision to purchase Indomie Varian Hype Abis Seblak Hot Jeletot products in Jombang regency. The method used in this study is a descriptive method of explanatory. The data analysis used is multiple linear regression analysis. In sampling using accidental sampling techniques, with a sample number of 100 respondents. The results of this study, from all respondents showed advertising and brand awareness had a positive effect on the decision to purchase Indomie Varian Hype Abis Seblak Hot Jeletot products in Jombang district.

Based on the test results, it shows that advertising is able to encourage purchasing decisions at Indomie hype as long as it is hot. Advertising on Indomie products is hype abl as hot as hot as delivered in an attractive advertisement, an advertisement explaining that the noodles are wide, plus seblak crackers and chili powder that can be adjusted according to the spicy level. Indomie's message, hype is too hot, as slow as it is conveyed in an attractive advertisement that makes consumers make the decision to buy Indomie, hype is too hot, as long as it is too late.

Based on the test results, it shows that brand awareness is able to encourage Indomie buying decisions to hype as long as it is hot. Brand awareness of Indomie products, hype is just as bad as hot, can be seen when consumers think of an Indomie product, hype is just as bad as hot, packaging designs appear in the minds of consumers, using images of chilies and an original seblak so that it attracts consumer interest.
